Food in the family home

Researchers from the University of Leeds are conducting a study to find out more about children's eating habits and food in the family home. In particular, they are interested in the views of parents of primary school aged children. Please find attached an information sheet below, that gives more information about the research.

They have developed an online questionnaire and are trying to get as many parents to fill this in. The questionnaire takes about 8-12 minutes to complete, is anonymous and voluntary.
