4<sup>th</sup> January 2021

Dear Parents and Carers,

### RE: Online Learning

Online learning has already commenced today for children that are currently not in school. As per my letter dated 1<sup>st</sup> December 2020, the expectation from the government is that children now have to complete online learning set by their class teacher when not attending a school setting. We have previously asked if there are any barriers that would prevent you from being able to access online learning and will continue to work with families to enable work to be completed.

Please go to the school website and find on the home learning page <http://www.hevinghamprimary.co.uk/home-learning/>, instructions on how to access google classrooms, the main platform for our children to access their learning for Year 1-6. Reception parents will need to access Tapestry via an internet browser not the app in order to view the tasks set for their children. Work will be set daily but you can always supplement the learning set with other areas of interest.

The work set will follow a normal teaching sequence that your child would experience in school but may also include learning new skills, research, making 3D objects, practising skills such as times tables and reading etc. These are all important skills that need to be continued during their time away from their class teacher and school resources.

Please let us know if you have any problems accessing the learning.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Lydia Board', written in a cursive style.

Mrs Board

Executive Headteacher
